

Maine Recycles

How Recycling works

Recycling material is delivered to the UARRC from our member communities. Then all material is sorted and loaded by hand and compressed in vertical balers to form bales weighing 600 to 1400 pounds depending on material type. The processed recyclable material then becomes a commodity and is sold to mills and/or manufacturers that use the material to produce new products or to reduce the amount of virgin material required to produce a given product. When consumers purchase items that are made from recyclable material, or at least contain post-consumer content, a demand is created for the commodities that we produce.

When you purchase items that contain post-consumer content, or purchase items which are made from 100% recyclable material, you are creating demand for the commodities centers like ours produce. When recyclable demand increases, so does the price per ton that we receive (supply and demand). The revenue generated offsets the member obligation, or cost, to operate the Center; more clean recyclable material = more revenue = greater offset. Recycling is not free, but it is a responsible approach for every town's solid waste management plan. Recycling creates jobs, conserves natural resources, and diverts part of the solid waste stream that would otherwise be burned and/or landfilled.

In Spring 2018, the UARRC flipped the switch to solar power. We are proud to be on the leading edge of Green technology and reducing our use of fossil fuels.

**Every day is Earth Day.
Please Recycle.**

Reduce—Reuse—Recycle—Responsibility

WHERE WE'RE LOCATED
95 Leonard Road, Thorndike
207-568-3117
TUESDAY—FRIDAY
9:00 AM—4:00 PM
SATURDAY
8:00 AM—1:00 PM
CLOSED SUNDAY & MONDAY

Volunteers are always needed and welcome.
Volunteers are requested to work a minimum of 2 hours per commitment

MATERIALS NOT ACCEPTED

- Food waste
- Grass clippings, leaves
- Furniture (e.g. brown goods)
- Construction debris
- Wood/Lumber
- Large appliances such as clothes dryers, washers, dishwashers.
- Tires
- Trash

Accepted materials are subject to change.
Contact UARRC with questions.
207-568-3117 - recycle@uarrc.org

TIPS

1. **All recycling items must be clean and dry.**
2. All accepted items must separately sorted by material category
3. Towns with curbside pickup, make sure material is boxed or bagged and dry
4. Curbside pickup only for paper, cardboard, plastics, glass, and metals. Can put milk jugs on a string.
5. No curbside pickup for electronics, light-bulbs or batteries
6. Can put milk jugs on a string
7. Materials are sorted/packed by hand.
Please be considerate of our Staff

MAINE RECYCLES

Unity Area Regional Recycling Center

WWW.UARRC.ORG

207-568-3117

WHO WE ARE

Founded in 1991, the Unity Area Regional Recycling Center services the towns of Dixmont, Freedom, Jackson, Knox, Montville, Thorndike, Troy and Unity.

OVERVIEW

Our goal is to reduce the amount of trash entering into the solid waste stream. The UARRC is where participating towns and residents bring recyclable materials, including Universal Hazardous Waste and Mixed Electronic Waste.

Residents of member towns use the Recycling Center at no additional cost. Residents of nonmember towns may purchase an annual membership for \$30 (Subject to change).

\$15.00 charge for freon appliances.

SMART DOLLARS

The UARRC processes and sells recyclable material. This is \$SMART as it offsets tax dollars spent managing solid waste. When recyclables are thrown in the trash the offset is reduced. This can increase the expense to haul away and dispose of the trash. Fewer recyclables in the trash means less cost to haul away AND the more recycled, the greater the return when they are sold.

This is \$SMART!

Material	What to Recycle	How to Recycle	Do Not Include
White Office Paper 	<ul style="list-style-type: none"> White office, envelopes without plastic windows Colorized white (e.g. when torn can see white fiber) White ruled school paper 	<ul style="list-style-type: none"> Keep dry and clean 	<ul style="list-style-type: none"> Carbon paper Colored construction paper Envelopes with cellophane windows
